EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification, page 1, as amended 8/21/06:

The PCT application number and date is corrected as follows:

PCT/US04/34120, filed October 26, 2004.

Allowable Subject Matter

Claims 1, 3-6, 11-21, 23-26, 30-41, and 43-45 are pending as amended by preliminary amendment of 8/21/06.

Claims 1, 3-6, 11-21, 23-26, 30-41, and 43-45 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1,3-6,11-21,23-26,30-41 and 43-45 are allowable because the prior art does not teach or fairly suggest process steps for starting the process with low density slurry (diluted) or permeate to prevent blinding of the filter during start up, which is also shown to produce unexpected results - significantly extended filter life of the VSEP filter stack. The closest prior arts are Trendell'628 and Quepons-Dominguez'848.

.Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
